

Theme: 11. SPECIAL RULES FOR CERTAIN ROAD USERS

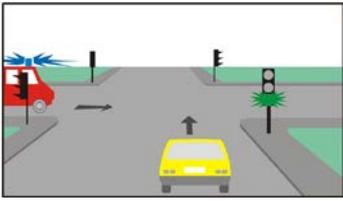

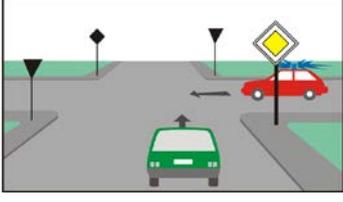

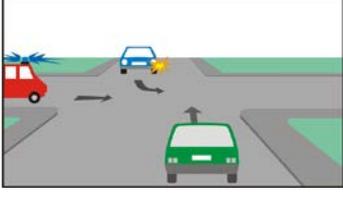

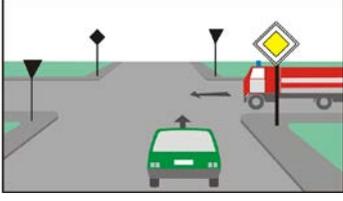

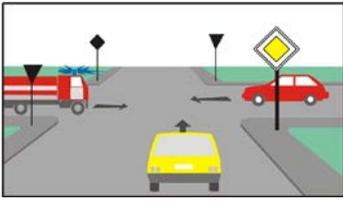

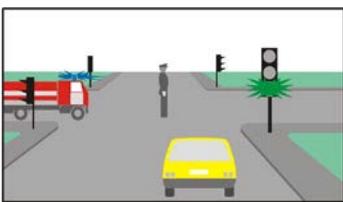

| points | K | № | Question, answers | Figure |
|--------|---|--------|---|--------|
| 2 | | 11/1 | <p>Drivers of mopeds are prohibited to drive:</p> <p>by holding to another vehicle in the immediate proximity to another road vehicle on the roadside with lights on during the day</p> | |
| 2 | | 11/2 | <p>Are the drivers of two-wheeled motor vehicles allowed to move parallel to each other?</p> <p>no yes, if they fit in one road lane yes, but only in populated areas yes, but only at the rightmost part of the driveway</p> | |
| 2 | | 11/3 | <p>Is the driver of a two-wheeled motor vehicle allowed to hold to another vehicle in order to move on the road?</p> <p>no yes, without restriction yes, but only when the two-wheeled motor vehicle is broken down yes, but only if the vehicle is moving in the right road lane</p> | |
| 2 | | 11/4 | <p>The driver of a two-wheeled motor vehicle is prohibited:</p> <p>to drive the vehicle without holding the handle bar to release the pedals with which he controls the vehicle to drive with lights on during the day to carry objects that impede driving</p> | |
| 2 | | 11/5.0 | <p>The driver of a two-wheeled motor vehicle is prohibited:</p> <p>to move on the roadside to drive in the immediate proximity to another road vehicle to hold to another road vehicle in order to travel on the road to carry objects that pose a threat to the other road users</p> | |
| 2 | | 11/5.1 | <p>The driver of a moped is prohibited:</p> <p>to move parallel to another two-wheel road vehicle to carry objects that impede driving to drive a vehicle in the areas designated only for pedestrians to drive on the roadside</p> | |
| 2 | | 11/5.2 | <p>The driver of a moped is prohibited:</p> <p>to drive in the immediate proximity to another road vehicle to drive a vehicle in the areas designated only for pedestrians to drive with lights on during the day to drive on the roadside</p> | |
| 2 | | 11/5.3 | <p>Moped riders are prohibited:</p> <p>to drive parallel to another two-wheeled road vehicle to hold to another road vehicle in order to move on the road to drive on the roadside to drive with lights on during the day</p> | |

| | | | | |
|---|-----|---------|--|--|
| 2 | Twt | 11/6 | <p>When towing of an inoperative motor vehicle in daytime, which of these ways for designation is the most efficient one?</p> <p>by switched on emergency lights by a warning light-reflecting triangle with low-beam headlights a red flag</p> | |
| 2 | Twt | 11/7 | <p>By which of the methods listed below may an inoperative vehicle be designated during towing at daytime?</p> <p>by a warning light reflecting triangle placed in the rear by switched on emergency lights with low-beam headlights by red light</p> | |
| 2 | Twt | 11/8 | <p>By which of the methods listed below may an inoperative vehicle be designated during towing at night?</p> <p>by switched on lights and emergency lights by switched on lights and placing a warning light reflecting triangle in the rear by placing white light in the rear only by switching on the lights</p> | |
| 2 | Twt | 11/9 | <p>By which of the following methods may an inoperative vehicle with a failure in the light system be designated during towing at night?</p> <p>by placing red light in the rear and switching the emergency lights by placing red light and a warning light reflecting triangle in the rear by placing white light in the rear by a red flag</p> | |
| 2 | Twt | 11/10 | <p>In towing of an inoperative motor vehicle in daytime, the towing vehicle should have switched on:</p> <p>low-beam headlamps emergency lights high-beam headlights only sidelights</p> | |
| 2 | Twt | 11/11 | <p>What are the requirements for the driver of the vehicle being towed?</p> <p>He must have a driving license for the category of the vehicle being towed He must have a driving license for the category of the towing vehicle It is not necessary for him to have a driving license. it is enough for him to have a driving license, regardless of the category</p> | |
| 2 | Twt | 11/13.0 | <p>What should be the length of the tow bar when towing an inoperative motor vehicle?</p> <p>from 2 m to 4 m up to 2 m from 4 m to 6 m</p> | |
| 2 | Twt | 11/13.1 | <p>When towing an inoperative motor vehicle, the length of the tow bar may be:</p> <p>2 m 3 m 4 m 5 m</p> | |
| 2 | Twt | 11/14.0 | <p>What should be the length of the flexible connection</p> | |

| | | | | |
|---|-----|---------|--|--|
| | | | <p>(rope, chain) when towing an inoperative vehicle?</p> <p>from 4 m to 6 m</p> <p>from 2 m to 3 m</p> <p>from 3 m to 4 m</p> <p>up to 2 m</p> | |
| 2 | Twt | 11/14.1 | <p>When towing an inoperative vehicle, the length of the flexible connection may be:</p> <p>4 m</p> <p>5 m</p> <p>6 m</p> <p>3 m</p> | |
| 2 | Twt | 11/15 | <p>In which of these cases is it prohibited to tow an inoperative passenger car with a flexible connection?</p> <p>when the length of the connection is less than 4 meters at night</p> <p>if its driver's experience is less than 2 years</p> <p>if the mass of the towing road vehicle is greater than the mass of the road vehicle being towed</p> | |
| 2 | Twt | 11/16 | <p>When towing with a tow bar:</p> <p>the length of the tow bar should be from 2 meters to 4 meters</p> <p>the tow bar should be painted crosswise with red and white stripes</p> <p>the motor vehicle being towed should have an operating steering system</p> <p>the motor vehicle being towed should have an operating brake system</p> | |
| 2 | Twt | 11/17 | <p>When towing with a flexible connection:</p> <p>the length of the connection must be from 4 meters to 6 meters</p> <p>the connection must be designated with a red flag at least at two places</p> <p>the motor vehicle being towed should have an operating steering system</p> <p>the driver of the towing motor vehicle must have at least two years of experience</p> | |
| 2 | Twt | 11/18 | <p>When towing an inoperative road vehicle with a flexible connection, it should:</p> <p>have an operating steering system</p> <p>have an operating brake system</p> <p>have an operating engine</p> <p>have an operating light system</p> | |
| 2 | Twt | 11/19 | <p>Is it allowed to tow a vehicle which has a defective brake system by means of a tow bar?</p> <p>yes</p> <p>no</p> | |
| 2 | Twt | 11/20.0 | <p>Is it allowed to tow a vehicle which has an inoperative steering system by means of a tow bar?</p> <p>no</p> <p>yes</p> | |
| 2 | Twt | 11/20.1 | <p>When towing an inoperative motor vehicle by means of a tow bar, the motor vehicle should have an operating:</p> <p>steering system</p> <p>brake system</p> <p>light system</p> | |

| | | | | |
|---|-----|---------|---|--|
| 2 | Twt | 11/21 | <p>The maximum permissible speed for movement in populated areas when towing an inoperative vehicle is:</p> <p>40 km / h 20 km / h 30 km / h 50 km / h</p> | |
| 2 | Twt | 11/22 | <p>The maximum permissible speed for movement outside populated areas when towing an inoperative vehicle is:</p> <p>40 km / h 30 km / h 50 km / h 60 km / h</p> | |
| 2 | Twt | 11/23 | <p>Are drivers of both the towing motor vehicle and the motor vehicle being towed obliged to coordinate with each other signals for mutual understanding during towing?</p> <p>yes, in all cases no yes, but only when they will move on a heavy traffic road yes, but only when moving on a highway or passenger car road</p> | |
| 2 | Twt | 11/24 | <p>Towing of an inoperative motor vehicle with a maximum permissible mass exceeding 5 tons is allowed to be carried out:</p> <p>by means of a tow bar by a special car by means of a flexible connection with low-beam headlights only by a vehicle with special equipment</p> | |
| 2 | Twt | 11/25 | <p>It is prohibited:</p> <p>to tow an inoperative vehicle at night to tow motorcycles with a sidecar to use two-wheeled motor vehicles for towing towing of two inoperative vehicles by a single vehicle</p> | |
| 2 | Twt | 11/26.0 | <p>It is prohibited to tow:</p> <p>two-wheeled road vehicles motorcycles with a sidecar an inoperative truck an inoperative vehicle at night</p> | |
| 2 | Twt | 11/26.1 | <p>Is towing of a motorcycle with a sidecar allowed?</p> <p>no yes</p> | |
| 2 | Twt | 11/27 | <p>When towing an inoperative vehicle, it is prohibited:</p> <p>to transport passengers in the motor vehicle being towed to tow in reduced visibility below 50 m for the towing motor vehicle to have a category other than the category of the motor vehicle being towed to tow when the towing vehicle is with a trailer</p> | |
| 2 | Twt | 11/28.0 | <p>When towing an inoperative vehicle, it is prohibited:</p> <p>to transport passengers in the motor vehicle being towed to tow using a flexible connection on a slippery road to transport passengers in the towing vehicle</p> | |

| | | | | |
|---|-----|---------|---|--|
| | | | for the towing motor vehicle to have a category other than the category of the motor vehicle being towed | |
| 2 | Twt | 11/28.1 | Is it allowed to transport passengers in a vehicle when the latter is used to tow another, inoperative vehicle? yes no | |
| 2 | Twt | 11/28.2 | When towing an inoperative vehicle, is it allowed to transport passengers in it? no, in all cases no, but only when the driver has less than 2 years of experience yes, without restrictions yes, but only when the driver has a driving license of C category | |
| 2 | Twt | 11/29.0 | It is prohibited: to tow in reduced visibility below 50 m to tow two inoperative vehicles using a single vehicle to tow an inoperative truck to tow an inoperative vehicle at night | |
| 2 | Twt | 11/29.1 | Is it allowed one vehicle to tow two inoperative vehicles? no yes | |
| 2 | Twt | 11/30.0 | When towing an inoperative vehicle, it is prohibited: to tow two inoperative vehicles using a single vehicle to tow when the towing vehicle has a trailer to tow when the vehicle being towed has a trailer to tow an inoperative vehicle at night | |
| 2 | Twt | 11/30.1 | When towing an inoperative vehicle, is it allowed for the towing vehicle to have a trailer? no yes | |
| 2 | Twt | 11/31.0 | When towing an inoperative vehicle, it is prohibited: to tow in reduced visibility below 50 m to tow using a flexible connection on a slippery road to tow in limited visibility to tow using a tow bar on a slippery road | |
| 2 | Twt | 11/31.1 | Is it allowed to tow an inoperative vehicle when the road is slippery? yes, but only by means of a tow bar yes, but only by means of a flexible connection yes, without restrictions no | |
| 2 | Twt | 11/31.2 | Is it allowed to tow an inoperative vehicle using a flexible connection when the road is slippery? no yes, without restrictions yes, if the towing vehicle has an anti-lock braking system | |
| 2 | Twt | 11/32 | The towing of an inoperative vehicle is prohibited: in reduced visibility below 50 m if the towing vehicle has a trailer at night on a highway | |

| | | | | |
|---|--|---------|---|---|
| 2 | | 11/33 | <p>Crossing of organized processions on the roads open for public use is:</p> <p>prohibited for all vehicles which do not participate in the procession</p> <p>allowed only for drivers of two-wheeled vehicles</p> <p>allowed only for drivers of passenger cars</p> | |
| 2 | | 11/34 | <p>In this situation the driver of the yellow passenger car:</p> <p>must give way to the ambulance because the latter has a signal switched on</p> <p>is not obliged to give way to the ambulance because the yellow passenger car is approaching the ambulance from its right side</p> <p>has a green light and will drive through before the ambulance</p> |  |
| 2 | | 11/35 | <p>In this situation, the driver of the green passenger car:</p> <p>must give way to the red vehicle because the latter has a special regime of movement</p> <p>must give way to the red vehicle, because it is approaching the road junction from the right side</p> <p>is not obliged to give way to the red vehicle, because it is moving on the road with right of way</p> |  |
| 2 | | 11/36 | <p>In this situation the driver of the green passenger car must:</p> <p>give way to the vehicle with a special regime of movement</p> <p>give way to both vehicles</p> <p>drive through before both vehicles</p> |  |
| 2 | | 11/37 | <p>In this situation is the driver of the green passenger car obliged to give way to the red vehicle, if it does not have a special light and sound signal switched on?</p> <p>no</p> <p>yes</p> |  |
| 2 | | 11/38 | <p>In this situation the driver of the yellow passenger car must:</p> <p>give way to the vehicle with a special regime of movement</p> <p>drive through before both vehicles</p> <p>give way to both vehicles</p> |  |
| 2 | | 11/39 | <p>In this situation is the driver of the yellow passenger car obliged to give way to the vehicle with a special regime of movement?</p> <p>no</p> <p>yes</p> |  |
| 2 | | 11/40.0 | <p>Motor vehicles with special regime of movement are the vehicles and motorcycles, which during</p> | |

| | | | | |
|---|--|---------|--|--|
| | | | <p>movement give:</p> <p>a light signal with flashing blue and / or red light</p> <p>a special sound signal</p> <p>a hazard warning signal</p> <p>a light signal with flashing yellow light</p> | |
| 2 | | 11/40.1 | <p>By which of the signals listed below is the motor vehicle with a special regime of movement identified?</p> <p>by a light signal with flashing blue light</p> <p>by a light signal with flashing red light</p> <p>by a special sound signal</p> <p>by a flashing yellow-light signal</p> | |
| 2 | | 11/41 | <p>When motor vehicles with a special regime of movement are approaching, the drivers of the other vehicles are obliged to provide for their smooth passing, by:</p> <p>ensuring enough space on the roadway</p> <p>stopping if necessary</p> <p>mandatory stopping at the rightmost part of the roadway</p> <p>immediately stopping in the road lane in which they are located</p> | |
| 2 | | 11/42 | <p>Are the drivers of road vehicles allowed to drive in the immediate proximity behind the vehicles with a special regime of movement?</p> <p>no</p> <p>yes, in all cases</p> <p>yes, when there is no speed limit</p> | |
| 2 | | 11/43 | <p>The driver of a motor vehicle with a special regime of movement is allowed:</p> <p>to drive through while there is a prohibiting traffic light signal</p> <p>to drive without stopping in the presence of a road sign which requires stopping</p> <p>to exceed the permitted maximum speed</p> <p>not to observe the signals of the traffic-controller</p> | |
| 2 | | 11/44.0 | <p>The driver of a motor vehicle with a special regime of movement is allowed:</p> <p>not to comply with the traffic arrangements in regard to the direction of traffic and making turns in a certain directions</p> <p>to park in places where there is a parking is prohibited</p> <p>to stop for a stay at places where the stay is prohibited</p> <p>not to drive safely</p> | |
| 2 | | 11/44.1 | <p>The driver of a motor vehicle with a special regime of movement:</p> <p>is allowed to drive without stopping in the presence of a road sign which requires stopping</p> <p>is allowed to exceed the maximum permissible speed</p> <p>is allowed to drive through while there is a prohibiting traffic light signal</p> <p>is prohibited to park at places where there is a parking prohibition</p> | |
| 2 | | 11/44.2 | <p>The driver of a motor vehicle with a special regime of movement:</p> <p>is allowed to drive through at a prohibiting traffic light signal</p> <p>is allowed to exceed the maximum permissible speed</p> <p>is allowed not to comply with the traffic arrangements in regard to the direction of traffic and making turns in</p> | |
